

## **Value Proposition**

---

Fusion Labs assists clients in achieving ROI by (1) managing enterprise application portfolios, (2) accelerating deployment of the next generation applications, and (3) offering unique end-to-end SLA (service level agreement) support for most business-critical IT operations.

## **Background**

---

Fusion Laboratories, Inc. (Fusion Labs) initiated operations on January 1, 2001, with the establishment of the Fusion Labs Application Lab in downtown Dallas, Texas. From this state-of-the-art facility, Fusion Labs provides both customized and packaged application management, support, security and operation.

Founded by a group of experienced management consultants and senior Fortune 500 executives responsible for supporting business operations through technology, Fusion Labs embodies a unique strategy to provide clients with total application support, which means that Fusion Labs can truly be called *The Premier Enterprise Service Provider*.

## **Mission**

---
